Contributing to the ISPA Monthly Newsletter

Aug 5, 2025

MONTHLY NEWSLETTER

Request for ISPA Monthly Newsletter Contributions

Dear ISPA Leaders,

This monthly reminder goes to all ISPA Country Representatives, Community Leaders, and Board Members.

I am requesting materials for the <u>ISPA monthly newsletter</u>. The newsletter is slated to go out the last week of each month. We like to post meeting announcements, articles of interest, updates from your country, job announcements, and other information suitable for sharing with the premier researchers on precision agriculture worldwide.

If you have an item of interest, please reply to this email and include the information. And we can always post articles, events, and links to the <u>ispag.org</u> website. Members can also contribute through the <u>website using the suggestion form</u>.

Country Representatives - Please submit an article giving us an update on the state of precision agriculture in your country. Our members are interested in learning more about PA across the globe and this will help bring attention to new projects.

If you have questions about posting, just let me know.

Thank you for participating in ISPA and for sharing our work and resources to keep the Society active and growing strong.

ISPA Executive Secretary PAQ Interactive, Inc. Monticello, Illinois USA +1 217 762-7955 info@ispag.org www.ispag.org

Precision Agriculture Definition

Precision Agriculture is a management strategy that gathers, processes and analyzes temporal, spatial and individual plant and animal data and combines it with other information to support management decisions according to estimated variability for improved resource use efficiency, productivity, quality, profitability and sustainability of agricultural production.

The International Society of Precision Agriculture (ISPA) is a non-profit professional scientific organization.

The mission of ISPA is to advance the science of precision agriculture globally.

Contact newsletter@ispag.org to suggest content for future newsletters or visit www.ispag.org for more about the Society
