Nitrogen Community Webinar Recording

Thank you to those who attended the Industry Solutions to N Management Webinar, hosted by the International Society of Precision Agriculture (ISPA) N Community.

While the live webinar was open to the public, a recording of it is available only to members of the ISPA, at
ispag.org/communities/nitrogen.
To view the recording, make sure to be logged in to your membership account.

Not a member of ISPA yet?
This is a great opportunity to join us and benefit from this and many other perks.

Iaroslav Boiko to Present Research Findings at the 4th African Conference on Precision Agriculture in Cairo

Iaroslav Boiko, CEO and co-founder of AgriLab, PhD in Agricultural Sciences, doctoral researcher, and ISPA Country Representative for Ukraine, will participate in the scientific program of the 4th African Conference on Precision Agriculture (AfCPA 2026), taking place on December 1–3, 2026, in Cairo,

Egypt.
During the conference, he will present the findings of research conducted as part of his doctoral dissertation, focusing on crop productivity management in crop rotations through the variable-rate application of liming materials on acidic, spatially heterogeneous soils using precision agriculture technologies.
The scientific presentation is entitled “Variable-rate Liming As a Precision Agriculture Strategy for Managing Soil Acidity in Field Crop Rotations.”
Particular attention will be given to approaches for assessing the spatial variability of soil acidity, determining site-specific application rates of liming materials, and evaluating their agronomic and economic effectiveness.
The research aims to improve soil fertility management practices, enhance crop productivity, and optimize agricultural resource use efficiency.
The oral presentation will take place on December 1, 2026, as part of the Precision Nutrient Management session.
Official conference website: https://paafrica.org/
Scientific program: https://www.paafrica.org/Program/Oral_Program

Upcoming Regional Conferences

Upcoming Speaker Deadline:
The Speaker Registration deadline is 30 October 2026. Abstracts will be dropped from the program if the presenter is not registered by this date.

For for information, please visit our **WEBSITE**.

Full Paper Instructions:
The 16th European Conference on Precision Agriculture full paper instructions are now available on the conference website. Full paper submissions are due by 15 December 2026.

For for information, please visit our **WEBSITE**.

Registration and Abstract Submissions:
The registration form for the 12th Asian-Australasian Conference on Precision Agriculture is now open. The conference is also accepting abstract submissions through 28 February 2027.

For for information, please visit our **WEBSITE**.

ISPA Country Representative

Country Representatives serve to help promote ISPA by championing the ISPA mission and purpose globally, in particular, in the country they represent. ISPA is growing internationally so Country Representatives remain an important position to help ISPA best serve people, groups, governments and others, globally connecting them to science and experts.

Please join us in thanking ISPA Country Representative from Italy, Alessandro Matese.

If you are interested in becoming a Country Representative, please email info@ispag.org with your bio highlighting your experience in precision agriculture and your CV. ISPA requires that all Country Representatives are current members of the society. To become a member, please complete the membership form.

ISPA Members - My Account Information

Manage and update your membership profile information on your unique My Account page.
Login to the ISPA website using your membership credentials, then upload or update your bio and headshot, change your contact information, add links to your social media accounts, and more.

Jobs Listing

Assistant Professor of Soil Science - University of California, Riverside
Graduate Research Assistant (Ph.D.) position in Precision Water Management - University of Missouri-Columbia

Do you have a job you would like to post to the ISPA website? Please send your job announcement, a short description, and the deadline for applications to info@ispag.org

Upcoming Events

1-3 DEC 2026
4th African Conference on Precision Agriculture
Cairo, Egypt

Stay Up To Date with ISPA on Social Media!

Be sure to follow ISPA on X and LinkedIn to stay up to date with what the society has to offer. If you're posting about precision agriculture and would like to reach our international community, please add **#ispag** to your post.

SPAM EMAIL NOTICE: ISPA does not sell your information. If you receive an email indicating that your information has been sold, this is spam. Please be diligent about spammers, if you would like to double check the validity of an email, please reach out to info@ispag.org.

Precision Agriculture Definition

Precision Agriculture is a management strategy that gathers, processes and analyzes temporal, spatial and individual plant and animal data and combines it with other information to support management decisions according to estimated variability for improved resource use efficiency, productivity, quality, profitability and sustainability of agricultural production.

The International Society of Precision Agriculture (ISPA) is a non-profit professional scientific organization.
The mission of ISPA is to advance the science of precision agriculture globally.
