Let's Define Precision Agriculture (next step)

Please send an email to past-president@ispag.org explaining why you want to be selected to participate in a soon to be launched [Codigital](#) process to developing a new definition of Precision Agriculture. Based on an initial survey, a few definitions will be provided to you and you will have a chance to vote, modify and propose new ideas. The other participants will do the same and a consensus will emerge. Participants are limited at this stage due to technical restrictions. So please, volunteer if you are really interested in having your views considered and provide a short justification about why you can make a difference.

Today, several dozen definitions exist to define the term “precision agriculture”. Some of these definitions are more widely used than others. However, the public perspective on precision agriculture has been changing with time and the original definitions may no longer be representative of this change. Many of the authors of published definitions are members of the International Society of Precision Agriculture (ISPA), and it will be a useful exercise to gather society-wide opinion on the proper definition.

Guidelines about On-Farm Experimentation

Building an “OFE wiki How-to”: seeking reports and guidelines about On-Farm Experimentation

The [ISPA Community OFE \(On-Farm Experimentation\)](#) is creating an online “OFE wiki How-to” to support On-Farm Experimentation initiatives worldwide. We are looking for:

- **Relevant material aimed at practitioners to (re-)publish (or link toward)** e.g. design manuals, implementation guidelines for farmers, best practice recommendations, scripts and protocols for analysts, statistical solutions and packages, accounts of experiences and lesson learnt for extension personnel, etc.
- **People motivated to volunteer time and effort to help** setup, compile, organise, write-up the Wiki (excellent opportunity for undergrads/ postgrads willing to be involved with international networks!)

5th Global Workshop on Proximal Soil Sensing

Dates: 28-31 May 2019

Location: Columbia, Missouri, USA

Website: www.pss2019.org

Dating back to 2008, the GWPSS provides a venue for exchanging research and application information related to all aspects of proximal soil sensing. With the theme of “Linking Soil Sensing to Management Decisions,” the 2019 workshop will include keynotes, oral and poster presentations, and a field day with equipment demonstrations.

Abstract submission deadline is **December 15, 2018**.

Please [visit the website](#) for more details and to submit your abstract.

12th ECPA - Deadline Updates

Dates: 8-11 July 2019

Location: Montpellier, France

Website is <http://ecpa2019.agrotic.org>

The French organisers are pleased to welcome the return of the ECPA conference to France and to Montpellier. The conference will continue with the successful format of previous conferences of building in strong industry sessions and participation. Taking advantage of the location of Montpellier on the Mediterranean coast, this 2019 edition will be an opportunity to focus on precision farming applied to small Mediterranean farms. Of course, oral and poster presentations will be welcomed from authors on any precision agriculture topic, though particularly welcome on the list of topics shown in the Programme section. All prospective authors and presenters should view the ‘Key Dates’ section to ensure they can meet the deadlines.

If you have any queries, please email: ecpa2019@agrotic.org

Key Dates

- Authors have been notified regarding their submissions.
- Full papers (8 pages) will then be required by **9 December 2018**.
- February 2019 – return of reviewed papers and confirmation of acceptance.
- A final deadline for submission of finalised papers will be set with the proceedings editor and will be notified shortly.
- Poster abstracts must be received by Wednesday **1 May 2019** to be accepted.
- Editorial work to ensure poster abstract they can be submitted to the book of abstracts must be completed by Friday **31 May 2019**.
- Registrations will open shortly.
- Closing dates for early bird registrations will be the **15 March 2019**.
- The closing date for final registrations, will be confirmed later.

8th Asian-Australasian Conference on Precision Agriculture

Oct 15, 2019 to Oct 17, 2019

Preliminary notice was given that the next ACPA, ACPA 2019 will be held at the Punjab Agricultural University between October 15 and 17th 2019. The contact person for the conference is Dr Manjeet Singh, manjeetsingh_03@pau.edu.

Conference Website: <http://8acpa.org.in/index.php>

IMPORTANT DEADLINES

Online Registration open

31 JANUARY 2019 - Deadline for Abstract Submissions

30 MARCH 2019 - Abstracts reviewed and acceptance letters sent

01 JUNE 2019 -Deadline for full paper submissions

01 JULY 2019 - Early registration discount ends (Register by this date for lower registration fee)

Do you have a precision ag event, project, or news article that our members would be interested in?

Please let us know. We [post events](#), [job opportunities](#), and [news from members](#) from around the globe.

Email info@ispag.org or use the handy [online form to submit your contribution](#).

Precision Agriculture Definition

Precision Agriculture is a management strategy that gathers, processes and analyzes temporal, spatial and individual plant and animal data and combines it with other information to support management decisions according to estimated variability for improved resource use efficiency, productivity, quality, profitability and sustainability of agricultural production.

The International Society of Precision Agriculture (ISPA) is a non-profit professional scientific organization.

The mission of ISPA is to advance the science of precision agriculture globally.
