

ISPA Newsletter 7(12) December 2019: Time to Submit ICPA Abstracts, Registration Open, PA in Bulgaria, Upcoming Events, Jobs

Dec 10, 2019

International Society of Precision Agriculture

MONTHLY NEWSLETTER

15th International Conference on Precision Agriculture

The 15th International Conference on Precision Agriculture will be held **28 June - 1 July 2020** at Minneapolis Marriott City Center in Minneapolis, Minnesota.

More information about the [conference hotel](#), [abstract submission](#), and [registration](#) is available at ispag.org/icpa.

Abstracts Deadline for 16th ICPA Extended Until December 1st

The International Society of Precision Agriculture in partnership with Kansas State University presents the

16th International Conference on Precision Agriculture

21–24 July 2024 | Manhattan, Kansas USA

Abstract Submission Deadline Extended!

The deadline to submit abstracts for the 16th ICPA has been extended to **1 December 2023**.

Submit your abstract: [ispag.org/abstracts](https://www.ispag.org/abstracts)

Thank you to everyone who submitted abstracts to the 16th ICPA by the 31 October deadline. We had a terrific surge of submissions the final week. We also had a number of requests to submit an abstract after the deadline. We have allowed for these later submissions and we want to be fair to everyone, so we are extending the deadline to **Friday, 1 December 2023**.

Due to the need to review all abstracts in a timely manner we will need to maintain this as the **final deadline** for submissions.

Abstracts can be submitted online at <https://www.ispag.org/abstracts>.

Information about the full paper submissions including a template can be found at [Author Instructions](#).

If you have any questions about submitting or the conference, please contact abstracts@ispag.org or phone +1217-762-7955.

PA in Bulgaria

Precision Agriculture in Bulgaria - Rositsa Beluhova-Uzunova and Dobri Dunchev, Agricultural University-Plovdiv, Bulgaria

In Bulgaria precision agriculture (PA) technologies are widely used on the large grain and oilseed farms in the northern part of the country. On those farms most tractors and combines are equipped with Global Navigation Satellite Systems (GNSS) displays and steering systems, and also with systems for implement guidance on slopes and systems for section control for sprayers. They also use combines which create digital yield maps during the harvest. According to the agricultural census in 2016, there are about 2300 large farms specialized in extensive production in Bulgaria. Those farm represent 68% of the country's agricultural area. PA technology is rare on medium and small farms in Bulgaria. More information on PA is available on the [ISPA website](#).

Upcoming Events

25-27 FEB 2025

GIS & Drone Applications in Agriculture Conference

29 JUN - 3 JUL 2025

15th European Conference on Precision Agriculture

Barcelona, Spain

ecpa2025.upc.edu/

22-31 AUG 2025

XXXII ISSCT Centennial Congress

Cali, Colombia

issctcennial.com/

14-16 OCT 2025

11th Asian-Australasian Conference on Precision Agriculture

Chiayi, Taiwan

ispag.org/Events/ACPA

2-4 FEB 2026

International Crop Modeling Symposium (iCROP2026)

Florence, Italy

Week of 13 JUL 2026

17th International Conference on Precision Agriculture and the 11th Brazilian Congress on Precision Agriculture

Porto Alegre, Brazil

Do you have an event that would be of interest to our members? [Send us an email to let us know.](#)

Jobs Listing

- [Postdoc in Digital Agronomy for Climate Resilient Perennial Agriculture](#)
- [Tenure Track Assistant Professor in soil spectroscopy at Department of Agroecology, Aarhus University](#)
- [Assistant or Associate Professor of Extension Soil Management - University of Kentucky - Department of Plant and Soil Sciences](#)
- [Precision Agriculture Technologies Extension Specialist - University of Tennessee - Biosystems Engineering and Soil Science](#)
- [Assistant Professor \(Extension\) - Mississippi State University - The Department of Agricultural & Biological Engineering](#)
- [University of Georgia - Assistant Professor - Extension Specialist Precision Agriculture Systems](#)

☐ Do you have a job you would like to post to the ISPA website? Please send your job announcement, a short description, and cutoff deadline for applications to info@ispag.org

Update your ISPA Account to Link with Communities

ISPA Community leaders will get in touch with interested members through the ISPA listserv. Make sure you do not miss important communications from them by keeping your ISPA membership current and updating your interests on your "[MyAccount](#)" page, under "Interests".

Contribute to the ISPA Newsletter

Do you have a precision ag event, project, or news article that our members would be interested in? Please let us know. We [post events](#), [job opportunities](#), and [news from members](#) from around the globe. Email info@ispag.org or use the handy [online form to submit your contribution](#).

Precision Agriculture Definition

Precision Agriculture is a management strategy that gathers, processes and analyzes temporal, spatial and individual plant and animal data and combines it with other information to support management decisions according to estimated variability for improved resource use efficiency, productivity, quality, profitability and sustainability of agricultural production.

The International Society of Precision Agriculture (ISPA) is a non-profit professional scientific organization.
The mission of ISPA is to advance the science of precision agriculture globally.
