An Update on Precision Agriculture in Brazil

By Brazil's Country Representatives Jose P. Molin (U. of São Paulo) & Ricardo Y. Inamasu (Embrapa)

Precision Agriculture (PA) practices undeniably began with soil management activities, and Brazil was no exception. In the late 1990s, attempts were made to replicate the business model, already well-established in the US, by selling fertilizers applied at variable rates, including sampling, data processing, and variable-rate distribution of inputs. The main players were the machinery industries, with GPS as the standout star. But what truly marked the beginning of the adoption of PA in the country is associated with the entrepreneurship of young professionals who launched a business model adapted to the Brazilian reality, with dedicated consulting services, starting in 2001/02. Exact figures are not available, but market surveys indicate that approximately one-third of Brazilian crops already use variable rates of fertilizers and lime.

#ISPAg

Country Representatives serve to help promote ISPA by championing the ISPA mission and purpose globally, in particular, in the country they represent. ISPA is growing internationally so Country Representatives remain an important position to help ISPA best serve people, groups, governments and others, globally connecting them to science and experts.

Please join us in thanking ISPA Country Representative from Turkey, Arif Behiç Tekin.

If you are interested in becoming a Country Representative, please email info@ispag.org with your bio highlighting your experience in precision agriculture and your CV. ISPA requires that all Country Representatives are current members of the society. To become a member, please complete the [membership form](#).

ISPA Members - My Account Information

Manage and update your membership profile information on your unique [My Account](#) page.

Login to the ISPA website using your membership credentials, then upload or update your bio and headshot, change your contact information, add links to your social media accounts, and more.

Upcoming Events

13-16 JUL 2026

17th International Conference on Precision Agriculture and the 11th Brazilian Congress on Precision Agriculture

Porto Alegre, Brazil

ispag.org/icpa/conference

3-5 AUG 2026

2026 Nitrogen Use Efficiency(NUE) Meeting

TBD

ispag.org/event_details

10-14 AUG 2026

Cows & Code - The Intensive School in Sensors and Data Analytics for Livestock Researchers

Oklahoma State University campus, Stillwater, Oklahoma

itlecs.okstate.edu/oldis/livestocksensor.vbhtml

23-25 SEP 2026

International Drone Congress 2026

Tucumán Rural Society, Tucumán Province, Argentina

congresodronesarg.com/?utm_source=chatgpt.com

21 OCT 2026

Nitrogen Community Webinar

Virtual

ispag.org/communities/nitrogen

1-3 DEC 2026

4th African Conference on Precision Agriculture

Cairo, Egypt

paafrica.org

11-15 JUL 2027

16th European Conference on Precision Agriculture

Copenhagen, Denmark

ispag.org/Events/ECPA

15-18 SEP 2027

12th Asian-Australasian Conference on Precision Agriculture

Kobe, Japan

smartconf.jp/content/acpa12/

16-19 JUL 2028

18th International Conference on Precision Agriculture

Athens, Georgia USA

Jobs Listing

[Graduate Research Assistant \(MS\) - Agricultural and Biological Engineering](#) - Mississippi State University

[Assistant Professor in Horticulture - Department of Botany and Plant Sciences](#) - University of California, Riverside

[Graduate Research Assistant \(Ph.D.\) position in Precision Water Management](#) - University of Missouri-Columbia

Do you have a job you would like to post to the ISPA website? Please send your job announcement, a short description, and the deadline for applications to info@ispag.org

Stay Up To Date with ISPA on Social Media!

Be sure to follow ISPA on X and LinkedIn to stay up to date with what the society has to offer. If you're posting about precision agriculture and would like to reach our international community, please add **#ispag** to your post.

SPAM EMAIL NOTICE: ISPA does not sell your information. If you receive an email indicating that your information has been sold, this is spam. Please be diligent about spammers, if you would like to double check the validity of an email, please reach out to info@ispag.org.

Precision Agriculture Definition

Precision Agriculture is a management strategy that gathers, processes and analyzes temporal, spatial and individual plant and animal data and combines it with other information to support management decisions according to estimated variability for improved resource use efficiency, productivity, quality, profitability and sustainability of agricultural production.

The International Society of Precision Agriculture (ISPA) is a non-profit professional scientific organization. The mission of ISPA is to advance the science of precision agriculture globally.
