MONTHLY NEWSLETTER

## CLAP2020 Latin American Congress of Precision Agriculture

On behalf of Dr. Gabriel Esposito, President of the Second Latin American Crogress of Precision Agriculture, please consider attending CLAP2020, "Managing the variability for sustainable production," organized by the Latin American Society of Precision Agriculture. The event will take place in Cordoba, Argentina, 14-16 October 2020. For more information visit the website at www.aslatap.com/clap-2020

## ECPA 2021

Dear colleagues,

It is with great pleasure that we invite you to the 13th European Conference on Precision Agriculture (ECPA) to be held between 19-22 of July, 2021 in Budapest, Hungary, under the auspices of the International Society of Precision Agriculture (ISPA) and organized by the Hungarian Society of Precision Agriculture and Agroinform. Abstract submission opens soon, deadline for the abstract submission will be 7th of October, 2020 (Wednesday) 12pm CET.

Budapest is the capital city of Hungary. Once called the “Queen of the Danube,” Budapest has long been the focal point of the nation. The city is a lively cultural centre on both sides of the Danube (Hungarian: Duna) River in the magnificent natural setting where the hills of western Hungary meet the plains stretching to the east and south. It consists of two parts, Buda and Pest, which are situated on opposite sides of the river and connected by a series of bridges.

Precision Agriculture (PA) is just as an important issue now as when it was first developing in the late 80s/early 90s. The size of ECPA meetings allows the community to focus on specific topics covering all aspects of PA practices, while discovering what our colleagues are working on, enabling synergies and co-operation. We cordially invite you to submit an abstract of your research related to the topics of 13th ECPA (listed in the conference website). We will do our best to keep the standards of the Proceedings, which will require a full paper submission (after acceptance of an abstract) and careful assessment by the Scientific Committee.

The 13th European Conference on Precision Agriculture conference website (https://ecpa2021.agroinform.hu/) will provide you with all the information related to the conference.

Shortly we will kindly ask you to fill in a questionnaire in order to have a better indication of possible attendance and to register your name and contact information in a database with the sole purpose of keeping you up-to-date.

Finally, we would like to  encourage all of you to come to Budapest and let your colleagues and the society know about your achievements.

We are looking forward to meeting you in Budapest.

The organizing committee

## Upcoming Events

**25-27 FEB 2025**
GIS & Drone Applications in Agriculture Conference

**29 JUN - 3 JUL 2025**
15th European Conference on Precision Agriculture
Barcelona, Spain
ecpa2025.upc.edu/

**22-31 AUG 2025**
XXXII ISSCT Centennial Congress
Cali, Colombia
issctcennial.com/

**14-16 OCT 2025**
11th Asian-Australasian Conference on Precision Agriculture
Chiayi, Taiwan
ispag.org/Events/ACPA

**2-4 FEB 2026**
International Crop Modeling Symposium (iCROPM2026)
Florence, Italy

**Week of 13 JUL 2026**
17th International Conference on Precision Agriculture and the 11th Brazilian Congress on Precision Agriculture
Porto Alegre, Brazil
ispag.org/icpa

See the ISPA website for a complete list of events.
Do you have an event that would be of interest to our members? Send us an email to let us know.

## Jobs Listing

- Postdoc in Digital Agronomy for Climate Resilient Perennial Agriculture

- Tenure Track Assistant Professor in soil spectroscopy at Department of Agroecology, Aarhus University
- Assistant or Associate Professor of Extension Soil Management - University of Kentucky - Department of Plant and Soil Sciences
- Precision Agriculture Technologies Extension Specialist - University of Tennessee - Biosystems Engineering and Soil Science
- Assistant Professor (Extension) - Mississippi State University - The Department of Agricultural & Biological Engineering
- University of Georgia - Assistant Professor - Extension Specialist Precision Agriculture Systems

Do you have a job you would like to post to the ISPA website? Please send your job announcement, a short description, and cutoff deadline for applications to info@ispag.org

## Contribute to the ISPA Newsletter

Do you have a precision ag event, project, or news article that our members would be interested in? Please let us know. We post events, job opportunities, and news from members from around the globe. Email info@ispag.org or use the handy online form to submit your contribution.

**Precision Agriculture Definition**

Precision Agriculture is a management strategy that gathers, processes and analyzes temporal, spatial and individual plant and animal data and combines it with other information to support management decisions according to estimated variability for improved resource use efficiency, productivity, quality, profitability and sustainability of agricultural production.

The International Society of Precision Agriculture (ISPA) is a non-profit professional scientific organization.
The mission of ISPA is to advance the science of precision agriculture globally.
